

PICK A LEAF

eco-friendly serveware solutions

LET'S

CHANGE

THE WORLD.

NOT

THE CLIMATE.

PICK A LEAF

ABOUT US

At Pick a Leaf, we harmonise innovation with sustainability. Our eco-conscious palm plates, made from naturally shed leaves, embody our commitment to the environment. Without cutting down a single tree, we've created a sturdy, biodegradable alternative to single-use plastics and a sustainable serveware solution for everyday use.

Choosing Pick a Leaf is more than choosing a plate, it's a choice for a greener future. Join us as we turn a new leaf for our planet, one palm plate at a time.

microwave-safe plastic, is actually **unsafe.**

New research, from the University of Nebraska-Lincoln, has revealed alarming findings about microwaving plastic food containers. Microwaved plastic containers release toxic microplastics, including even smaller nanoparticles, which pose a serious health risk.

Environmental Science & Technology Journal
August 2023

PICK A LEAF

Why the smartest and coolest people on the planet love using palm plates?

Micro and Nanoplastic-Free

Our plates are free from harmful microplastic and nanoplastic particles, ensuring a safer and healthier microwave experience.

Sustainable

Made from naturally fallen palm leaves, our plates are fully compostable and biodegradable, reducing your carbon footprint and helping the planet breathe.

Non-Toxic

No harmful plastics, chemicals, or binders are used, ensuring a safe dining experience.

Versatile

Freezer-friendly, microwave-safe, and oven-safe (up to 350°F). They can even serve as a unique baking base for your culinary explorations.

No more dishes

Say goodbye to stacks of dirty dishes after daily meals & parties. Use, enjoy, and compost.

Sturdy & Leakproof

Crafted for convenience, our plates are strong, durable, and leakproof, handling saucy foods with ease.

Natural Aesthetics

Each plate carries unique natural markings and patterns, adding a rustic charm to your table settings.

Hypoallergenic

Our plates are naturally hypoallergenic, reducing the risk of allergies, a perfect choice for sensitive individuals.

-  Check Footnote

Footnote:

- ⚠ Sugarcane Bagasse: Suitability for microwaving can depend on additives used during its production.
- ⚠ Sugarcane Bagasse, Bamboo, Paper, and Aluminium: Potential presence of chemicals depends on the manufacturing process and specific brands. It's essential to verify with individual suppliers.
- ⚠ Sugarcane Bagasse, Bamboo, and Paper: While the base materials typically don't cause allergic reactions, the processing or additives might introduce potential allergens. Always verify with individual suppliers.

Palm Plate Maze Challenge

Every time we use something natural that returns to the earth harmlessly, we're shaping a better world for generations to come.
